

DAWID MSZANOWSKI

1999 · Warsaw

dmszanowski@icloud.com

My fascination about programming started growing significantly since I discovered Python. As a child I loved to tear apart my electric toys and watch what is inside. My own programming experience has begun very similar. Although I did not understand much, I kept looking into various projects' code wherever it was possible. At the very beginning it was copy-paste and changing values but within time I started adding my own lines. Today I am sure this is what I want to do for a living.

KEY SKILLS

- JS ES6, React, NodeJS
- Python, Django
- MySQL, PostgreSQL
